We can accommodate only 1000 in Barracks and will reserve space in order of the applications received.

Value of a College Education.

There was never a time when expert knowledge was so highly prized and so highly compensated.

High wages for untrained labor will tempt many a young man to discount the value of a college education. But such an education, representing the work of four years, viewed merely as an investment of time and of money, is equal in earning capacity to an estate of more than \$50,000.

What estate comparable with this can the parent of average means hope to give or leave to his son? What young man can acquire that much value in the same time at any other business?

Education fits one for a life whose possibilities are limited only by his capacity and character. Eventually for the untrained there awaits the slavery of ignorant and undirected effort.

Clemson College brings, within the reach of every young man in South Carolina the benefits and possibilities of a technical education. At Clemson College a boy from the humblest home in South Carolina can prepare himself for a high place in the service of his state and nation.

W. M. RIGGS, President.

SCHOLARSHIP AND EXAMINATIONS.

The College maintains 170 four-year scholarships in the Agricultural and Textile Courses, and 52 in the One Year Agricultural Course (October 1 to June 1st. Each scholarship is worth \$100.00 and free tuition.

Scholarship and entrance examinations are held at the county court houses at 9 a. m., July 9th. Write for full information in regard to the scholarships open to your county next session, and the laws governing their award.

Those who are not seeking to enter on scholarships are advised to stand examinations on July 9th, rather than wait until they come to the College in the fall. Credit will be given for examinations passed at the county seat.

For full Information Write or Wire: The Registrar, Clemson College, S. C.

DO NOT DELAY, YOU MAY BE CROWDED OUT. APPLICATIONS WILL BE CONSIDERED IN THE ORDER RECEIVED.

Plan Now For High Prices When You Sell Your Lands Next Fall.

Reeves & Stackhouse Expert Service Guarantees Best Results From Auction Sales

THIS is the day of the small farmer, the man who can intensify cultivation and fertilization on a small acreage,—produce big crops and spend little for labor.

There are more men who want to buy and cultivate small farms than there are small farms for sale. In this fact lies the big opportunity of owners who control bodies of land which they cannot cultivate to advantage. Idle land pays no income.

Every acre of South Carolina soil should be bringing owners a fair return on every cent of its value. Unless it can be intensively cultivated it becomes a liability instead of being an asset. The worth of an acre of land in this section is what it will bring when it is offered to the public. The auction bid is the measure of its value, determined by open competition.

Auction sales are our specialty. We are not auctioneers. We turn that part of the job of selling land to men who know auction work as well as we know real estate values.

We represent the owners of land to be sold from the time he signs a contract authorizing us to make a sale right on up to the time when we are convinced that the last bid offered represents as good a price as the property will bring.

We are listing auction sales now. We want to add desirable sales to our lists. We will take no more than we think we can handle to the best interests of the clients who place their sales in our hands.

We are working even now to guarantee good prices at Fall sales. Let us begin right away to work up your sale. A letter or a postal card will bring a member of our firm to consult with you over the auction possibilities of your land. Send it today.
